6 March 1958

MEMORANDUM FOR: Director of Training

SUBJECT : Intelligence School Weekly Report #9
28 February through 6 March 1958

1. The initial drafts of long-term schedules (FY1959) have been prepared by each of the Faculties. They are now being re-vised slightly to improve the sequence for major groups of students, e.g., JOT's, support personnel going overseas, etc. There are two chief difficulties here:

a. Sequence of courses for greatest convenience to the one group of students, JO's, for example, may make it difficult to schedule for another group, e.g., the support types.

b. Space is extremely tight both in [] R & S. Because of space [] has to key her schedule to the Ops School plan, whereas the IO and other Intelligence School courses have to key in with SIC and with R & S classroom availability. The two requirements can be only approximately pulled together.
